

Yanissa Lambole

ERP Project Manager at IFS

September 29, 2021, Yanissa managed Asanka directly

Asanka joined a very ambitious migration project July 2021 that I have the pleasure to manage. We were under great constraints to deliver all developments required by our customer in a very limited time. The aim was to prove to our Organization we could shorten migration to the minimum of time and improve customer's satisfaction.

During this period of time, Asanka showed all the expected qualities and competencies that are necessary to quickly become a Senior Software Engineer.

He was able to uplift and redevelop the entirety of the developments with the highest quality. As of today, all of them have passed customer testing with no errors. He also showed great involvement in the management of the project, regularly reporting progress of his tasks, requiring advice from Seniors and joining forces with consultants when needed.

He went the extra mile when we needed packages to be delivered to the customer, not hesitating to learn new skills and working extra hours to help resolving issues independent from his work.

It was a real pleasure working with Asanka. I highly recommend him, he has a bright future in front of him.

Priyal Kulathilake

Senior Specialist Consultant at Netonyx IT Solutions

September 14, 2021, Priyal managed Asanka directly

Asanka was in my team for more than 1 years in SITS. He worked in several financial projects in the team and grab the domain knowledge fast, adopt to the technology quickly and motive to finish the task on time. His commitment toward the work the team is highly appreciated. He is very quiet in the team and always enjoyed with the team. I would like to recommend him and wish his success!

Denuka Nirmalee

Technical Consultant at Cedar Bay

August 31, 2021, Denuka worked with Asanka in different groups

Asanka and I studied in the same faculty and later I got the opportunity to work with him in the same organization. Asanka is an important contributor to many upgrade projects. He consistently delivers high-quality work, meets deadlines, and assists his co-workers at every opportunity. He is a positive and easy-going person to work with. I wish him all the best in his future endeavors.

Kasun Mahaliyanaarachchi

Data Science | Machine Learning | Artificial Intelligence | Big Data | Data Engineering

August 25, 2021, Kasun and Asanka were students together

Asanka is one of the best among all the people I have ever worked with. He is a very productive person, is hardworking, broad-minded and forward-thinking individual. Intelligent, ambitious, energetic and proactive perfectionist. Desire for proficiency and education makes Asanka a valuable asset to the team. Working with him is a signature of success. Asanka is a great IT professional, and certainly can get my full recommendation.

Ahamed Shimak

iOS | .NET

August 24, 2021, Ahamed worked with Asanka in different groups

I've worked alongside Asanka for close to one and a half years now. In that one and half years, I've seen him learning IFS' various components and excelled in those areas. Asanka has grown as quickly as GCSO has, and his willingness to learn and take on these new responsibilities is something to be desired in any professional.

Kasun Rathnayake

Software Engineering

August 23, 2021, Kasun and Asanka were students together

Asanka is well organized, diligent, and a fast learner. Being a fast learner helped him understand the market fit and quickly choose the right path to success. Also he is a good leader, he played a great role as a leader at university group projects. I think these great personalities of Asanka will move him to top of the industry. It was a pleasure to study with Asanka. Best of luck, Asanka.

Rumesh Aponso (RMAX)

Experienced Software Engineer | IFS ERP | Tech Enthusiast

August 23, 2021, Asanka worked with Rumesh in the same group

I've known Asanka for almost 2 years while I work at IFS. Asanka has a very good foundation in coding basics and IFS technologies. He is a quick learner who is dedicated to the work given and eager to learn new things. He is a clam character and do not hesitate to help others in need. Asanka has a great potential and passion for what he does, thus I would think he would be an asset to any company, and I could easily recommend him to any position that fits him. Finally, I wish him good luck.

Gayan Jeewantha

Senior Software Engineer

August 22, 2021, Gayan and Asanka were students together

Asanka is a highly motivated professional with excellent technical knowledge. I have been worked with him on several years and and I was impressed with the depth of knowledge and the passion for work that he possesses. He is highly skilled in his area of work specially in .net framework. Further He is a very committed and supportive professional and makes sure that whatever project he is working on meets the highest standards as well as deliver the product on time. I have never known Asanka to disappoint anyone who gave his a task or responsibility. You will find his to be a joy to work with.
